ANNOUNCEMENT

All the items we offer are of our own growing, high germination, absolutely true to type, produced with the finest possible planting seed and are California and Colorado grown. Our personnel has had nearly a quarter of a century's experience in the production of the cucurbits, and we invite comparative trials with stocks from any other source. Samples for trial gladly furnished gratis.

Our California and Colorado warehouses are fully and completely equipped with modern machinery and with all equipment to handle production in a skillful and efficient manner. We use unusual care in germination tests and in further refining our seeds, to eliminate all foreign matter.

We make a great specialty of the reproduction of special strains—no quantity too large or too small. Send us your special stock seeds for reproduction purposes.

Our terms are 60 days, with acceptance, or 1% 30 days, 1½% 10 days to all well rated firms, others draft with B/L less 2%. Delivery is at our option, F.O.B. Rocky Ford, Colo., or Modesto, Calif., with containers billed at cost.

We shall be governed by a commercial credit agency's report in determining our terms. Any claims against our shipments must be made within two weeks after arrival of our goods; we are never liable to more than invoice price of goods. If the final yield of seeds be under our field estimate, we are under no obligation to fill as estimated. The other terms are as per the usual custom with seed growers.

We therefore respectfully ask you to give due consideration to this list and favor us with a fair share of your orders.

Yours respectfully,

LAWRENCE ROBINSON & SONS, INC.

SEEDSMEN

Modesto, California

OUR POLICY

We are continuing our strict policy of quoting the larger users of our seeds, only. We question if any vegetable seed grower in the U. S. A. is more firm with this policy than ourselves. It is never our intention to quote trade that will in any way conflict with our customers.

We confine our entire activities to producing the cucurbits only—we have no side lines of any description. Special strains our specialty—photographs secured at cost.

IMPORTANT—The prices given contemplate quantities of 100-500 lbs. of each variety. If according to the enactment of any laws we are compelled to make a difference on smaller quantities we shall be so governed.

GOURDS

We are producing only the large mixed and the small ornamental gourds. We believe our mixtures will contain many varieties not usually included.
